Across

- **2.** An inflammation of the blood vessels that causes changes in the blood vessel walls.
- **5.** A group of diseases that result in too much sugar in the blood, or high blood glucose.
- **8.** A form of arthritis characterized by severe pain, redness, and tenderness in joints.
- **10.** A condition in which the force of the blood against the artery walls is too high.

- ¹⁴B O N E T U M O R
- **11.** Widespread muscle pain and tenderness.
- **12.** An escape of blood from a ruptured blood vessel, especially when profuse.
- **13.** An inflammation or infection in one or more small pouches in the digestive tract.
- **14.** A mass of unusual cells growing in a bone. Most bone tumors aren't cancerous.

Down

1. A blood clot in a deep vein, usually in the legs.

- **3.** An acute inflammation or irritation of the bronchi.
- **4.** A form of indigestion felt as a burning sensation in the chest, caused by acid regurgitation into the esophagus.
- **6.** A disorder in which tissue that normally lines the uterus grows outside the uterus.
- 7. A cancerous or noncancerous mass or growth of abnormal cells in the brain.
- **9.** An inflammatory disease caused when the immune system attacks its own tissues.
