

# The Working Memory Model

## Across

5. What stores visual data
8. What directs information to its 'slave components'
9. A case study of a man who was involved in a motor cycle accident which supports the model
10. The .....-..... sketchpad

## Down

1. What allows maintenance rehearsal
2. What type of words make things harder to remember
3. What records the arrangement of objects in the visual field
4. A researcher of the WMM
6. What deals with auditory information (phonological loop)
7. .... buffer
