

Coordinate Geometry

N 33.5901037
E 36.4404945

Across

4. by plotting the points o(0,0)

7. point (-1,7_2) lies in which quadrant

9. x-axis is also known as

10. (0,0) are the coordinates of

11. Rene Descartes was a _____ mathematician

12. if x and y both are positive , then the point (x,y) lies in _____ quadrant

13. the famous mathematician associated with the problems of describing the position of a point in a plane

14. the abscissa of all points on the y axis is always

Down

1. what will be the distance of the point (0,-3) from the origin

2. another name of coordinate plane

3. for a given point P _____ is the distance of the point P from x axis respectively

5. if the abscissa of a point is 1 and the ordinate is 0, then the point lies in the

6. the coordinates of points are of the form of (+,-) is in which quadrant

8. the x coordinate of a point lies in the third quadrant is always
