

# Natural Disasters

## Across

5. When the land starts to sink into the ground  
 11. A storm in shape of a spiral that is similar to a cyclone  
 12. When snow falls off a cliff in multiple turns  
 14. A storm similar to a blizzard but more snow is involved  
 15. A fire that gets out of control and hurts anything it touches

## Down

1. When there is heavy rainfall and it gets out of control  
 2. When a volcano erupts  
 3. A cold storm normally in the coldest parts in the world  
 4. A disaster that shakes the Earth  
 6. A fire that happens in nature areas  
 7. When there has not been any rain for a long time  
 8. A huge wave caused by an ocean-floor earthquake  
 9. A whirling storm caused by the wind  
 10. A storm that normally happens in the desert  
 13. A storm that takes you and spins you around
