

Natural Disasters

Across

- 5. When the land starts to sink into the ground
- 11. A storm in shape of a spiral that is similar to a cyclone
- 12. When snow falls off a cliff in multiple turns
- 14. A storm similar to a blizzard but more snow is involved
- 15. A fire that gets out of control and hurts anything it touches

Down

- 1. When there is heavy rainfall and it gets out of control
- 2. When a volcano erupts
- 3. A cold storm normally in the coldest parts in the world
- 4. A disaster that shakes the Earth
- 6. A fire that happens in nature areas
- 7. When there has not been any rain for a long time
- 8. A huge wave caused by an ocean-floor earthquake
- 9. A whirling storm caused by the wind
- 10. A storm that normally happens in the desert
- 13. A storm that takes you and spins you around
