## **Across**

- **5.** the denotation in the metric system which identifies measuring length, mass, or volume.
- **8.** Electronic measurement tool to measure mass
- **9.** metric prefix used to signify 1/1000
- **10.** measurement tool used to measure length.

## Down

- **1.** Measurement system used in scientific fields.
- 2. Tall measurement tube to measure volume.
- **3.** A tool used to keep items at a suitable low temperature.
- **4.** mechanical measurement tool used to measure mass
- **6.** metric prefix used to signify 1000
- **7.** Plastic or glass container to hold liquids.
