

Engineering types

Across

- 3. Design oil mining machine
- 9. Make anti lock brakes for cars
- 10. Supervise lightning
- 11. Makes tools for doctors
- 12. Design and build tunnels and bridges

- 13. Design phones and how they transmit data and voice to one another

Down

- 1. Manipulate and study DNA
- 2. Design components for railroads

- 4. Make advance in technology for health
- 5. Design electrical wires and electrical poles
- 6. Make sure an item is of good quality
- 7. Oversees water quality
- 8. Robotic crutches
