Circle of Willis Jugular Carotid

Across

Α

- **6.** the alternating expansion and relaxation of the artery walls
- **9.** a flap of tissue that prevents blood from flowing backward
- 10. the process by which molecules move from an area of higher concentration to an area of lower concentration
- **11.** largest artery in the body
- **14.** the body's disease fighters
- 15. the liquid part of blood

- **16.** (singular) upper chambers of the heart
- 17. consists of the heart, blood vessels, and blood

Down

- 1. a group of heart cells that sends out signals that make the heart muscle contract
- **2.** (singular) lower chambers of the heart
- **3.** blood vessles that carry blood away from the heart
- **4.** iron-containing protein that binds chemically to oxygen molecules

- **5.** a force exerted by blood against the walls of blood vessels
- 7. take up oxyhgen in the blood and deliver it to cells elsewhere in the body
- **8.** place where substances are exchanged between the blood and body cells
- **12.** bloodvessles that carry blood back to the heart
- **13.** hollow, muscular organ that pumps blood throughout the body
