

Name: _____

Date: _____

My Ecological Footprint

Across

- 1. Energy from the sea
- 4. Protective layer around the Earth
- 8. Energy created by water movement
- 11. Our natural surroundings
- 12. Gas produced from burning Fossil Fuels

14. Our duty to save the planet

15. Melting Polar Icecaps will cause these to rise

Down

2. The environmental cost of burning Fossil Fuels

3. The process of reusing waste products

5. Energy that can be maintained

6. A machine used to harness wind power

7. Coal and Natural Gas

9. The planet that we MUST look after

10. Energy from the Sun

13. Our moral duty - (doing the right thing)
