

Name: _____ Date: _____

Facts from Cowspiracy: The Sustainability Secret

Across

1. _____ produce 150 billion gallons of methane per day.
2. Land required to feed 1 person for 1 year: Vegan: 1/6th acre; Vegetarian: 3x as much as a vegan; Meat Eater: 18x as much as a _____
3. In the U.S. livestock produce 116,000 lbs of waste per _____
4. Scientists estimate as many as 650,000 whales, dolphins and seals are killed every year by _____ vessels.
7. A farm with 2,500 _____ cows produces the same amount of waste as a city of 411,000 people.
8. Animal agriculture is responsible for up to 91% of Amazon _____
14. 82% of starving children live in _____ where food is fed to animals, and the animals are eaten by western countries.
22. Each _____, a person who eats a vegan diet saves 1,100 gallons of water, 45 pounds of grain, 30 sq ft of forested land, 20 lbs CO2 equivalent, and one animal's life.
23. Animal agriculture is the leading cause of species extinction, ocean dead zones, water _____, and habitat destruction.

24. 1,000 gallons of water are required to produce 1 gallon of _____
25. For every one _____ of fish caught, up to five pounds of unintended marine species are caught and discarded as by-kill.
26. 1.5 acres can produce 37,000 pounds of plant-based food. 1.5 acres can produce 375 pounds of _____
27. 80% of _____ sold in the US are for livestock.
- ## Down
5. Agriculture is responsible for 80-90% of US _____ consumption
6. More than 6 million animals are killed for food every _____
9. 1-2 acres of _____ are cleared every second.
10. 5% of water consumed in the US is by private homes. 55% of water consumed in the US is for animal _____
11. Animal agriculture is responsible for 18 percent of _____ gas emissions, more than the combined exhaust from all transportation.
12. 2,500 gallons of water are needed to produce one pound of _____

13. Animal agriculture water consumption ranges from 34-76 _____ gallons annually.
15. Every _____, 7 million pounds of excrement are produced by animals raised for food in the US
16. Livestock and their byproducts account for at least 32,000 million _____ of carbon dioxide (CO2) per year, or 51% of all worldwide
17. arly _____ of the contiguous US is devoted to animal agriculture.
18. A person who follows a vegan _____ produces the equivalent of 50% less carbon dioxide, uses 1/11th oil, 1/13th water, and 1/18th land compared to a meat-lover for their food.
19. Up to 137 _____, animal and insect species are lost every day due to rainforest destruction.
20. 130 times more _____ waste than human waste is produced in the US - 1.4 billion tons from the meat industry annually. 5 tons of animal waste is produced per person in the US.
21. As many as 40% (63 billion pounds) of _____ caught globally every year are discarded.
