

Name: _____

Date: _____

Kinetic and Potential Energy

Across

3. The more mass, the _____ kinetic energy.

4. The letter h stands for _____

8. V stands for _____

10. Stored energy

12. Potential energy that depends upon and object's height

13. The _____ the speed, the less the kinetic energy.

14. The letter g represents _____

Down

1. The ability to do work

2. The unit for energy

5. The Law of _____ of Energy

6. The energy of motion

7. Potential energy depends upon mass and _____.

9. The letter m represents _____

11. Kinetic energy depends upon mass and _____.
