Across

- **4.** used to hold small amounts of pre measurable substances
- **8.** used to determine the mass of larger, heavier object mass
- **9.** used to measure large volumes of liquid
- **10.** used to measure the volume of liquids

Down

- 1. used to determine a smaller, lighter object mass
- 2. used to hold and dry test tubes
- **3.** used for transferring dry chemicals
- **5.** used to measure how much hea energy is an object
- **6.** used to transfer liquid from one container to another
- 7. used to weigh of transfer chemicals (usally dry)
