## <u>Across</u>

- 2. Helps body fight against disease...
- **5**. Responsible for producing offspring...
- 6. What are the basic units of all living things?
- 7. Body system that eliminates waste...
- 8. Affects growth and development
- **9**. Controls/coordinates all systems...

- 10. The study of the structures of the human body that can be seen with the naked eye and how the body parts are organized is known as...
- 11. Covers, shapes, supports skeletal tissue
- 12. This system enables breathing.
- 13. This system controls the circulation of blood.

- 14. The study of the functions and activities performed by the body's structures....
- 15. This system regulates body temperature.

## **Down**

- 1. Provides physical body foundation...
- 3. This system changes food into nutrients and wastes.
