

Name: _____ Date: _____ Period: _____

science

Across

- 4. substance or molecule that participates in a chemical reaction
- 11. substances that changes rate of a chemical reaction
- 12. substance formed in chemical reaction
- 13. minimum amount of energy a reaction takes

Down

- 1. reaction where energy is absorbed
- 2. law that states energy cannot be created or destroyed
- 3. law that states mass cannot be created or destroyed
- 5. combo of symbols representing chemicals

- 6. representation of chemical reaction
- 7. where 2 substances combine to form another substance
- 8. substance that slows or stops a chemical reaction
- 9. solid formed from a chemical reaction
- 10. reaction where energy is released
