

physics waves

Across

3. the name for the bottom of a wave

6. what does f stand for the equation to find speed

8. another name for vibration

10. height of a wave

11. largest electromagnetic wave

12. name of a type of wave

Down

1. name of a right angle

2. what type of wave is sound

4. the words used to describe the end of a wave

5. the number of waves

7. smallest electromagnetic wave

9. what does v stand for in the equation to find speed
