Name: _____ Date: _____ Period: _____

Mitosis & Meiosis

Across

3. What is the structure that connects chromatids?

7. Which phase of mitosis takes the longest?

9. What are the things that connect centrioles?

10. What is the name for sperm and egg cells?

11. What is the mnemonic for mitosis?

12. What is the actual first phase of mitosis?

13. How many times does interphase occur in meiosis?

14. When does the parent cell become two separate cells?

Down

1. How many chromosomes do each ending cell of meiosis contain?

2. In which phase of mitosis does the chromosomes begin to separate?

4. What is the division of sex cells?

5. During which phase of mitosis, are the chromosomes are lined up in the middle of the cell?

6. What is the copying of DNA called?

8. During which phase of mitosis does the nucleus start to form again?
