

Name: _____ Date: _____ Period: _____

Chemical Compound Common Name

Across

2. sodium hydrogen carbonate helps regulate pH
4. isopropyl alcohol
6. magnesium sulfate
12. hydrochloric acid
13. carbon
16. mercury
17. potassium nitrate
18. methyl alcohol
20. sodium thiosulfate
22. sodium tetraborate decahydrate

24. silicon dioxide

25. hydrogen peroxide is used to remove stains
26. calcium sulfate dihydrate
27. calcium carbonate
28. iron disulfide
29. calcium hydroxide
30. ethanol

Down

1. potassium chloride
3. lead (II) sulfide
5. potassium carbonate

7. sucrose

8. sodium hydroxide
9. sodium carbonate decahydrate
10. sulfur
11. dinitrogen oxide
14. calcium carbonate
15. dichlorodifluoromethane
19. calcium oxide
21. sodium chloride
23. ammonium chloride
