

Braiding Ch 18

Across

4. A technique in which the first side section goes over the middle one, then the other side section goes over the middle strand

6. Simple two strand braid in which hair is picked up from the sides and added to the strands as they are crossed over each other.

10. Also known as canerows. narrow rows of visible braids that lie close to the scalp and are created with a three strand on the scalp braiding technique

11. also known as inverted braid or french braid; a three strand braid that is produced with an overhand technique.

12. braid created with two strands that are twisted around each other

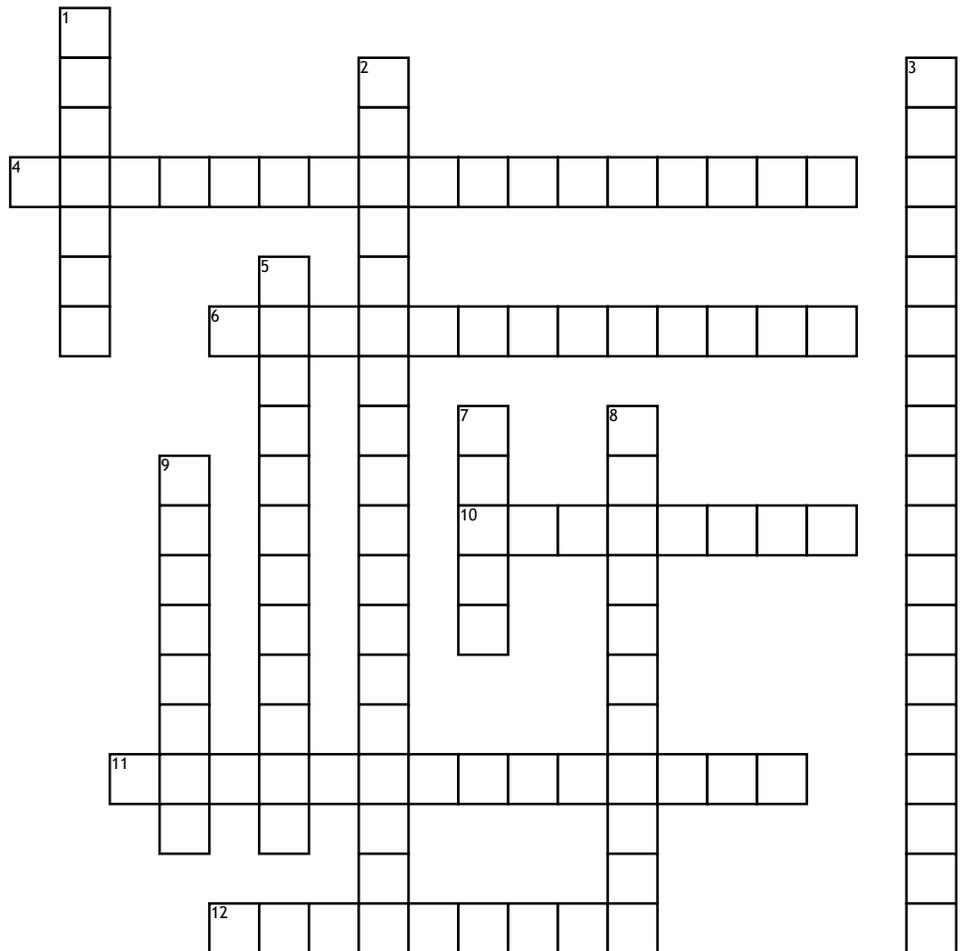

Down

1. Interweaving a weft or faux hair with natural hair.

2. Also known as plaiting; a technique in which the left section goes under the middle strand, then the right section goes under the middle strand

3. hairstyling that uses no chemicals or dyes and does not alter the natural curl or coil pattern of the hair

5. three strand braid that is created using underhand technique

7. also known as dreadlocks; separate networks of curly, textured hair that have been intertwined and meshed together.

8. also known as box braid or individual braids; free hanging braids with or without extensions, that can be executed using either an underhand or an overhand technique

9. overlapping two strands to form a candy cane effect
