

I.E.D Unit 3 key terms

- | | |
|---|---|
| <p>Across</p> <p>4. An international system of 7 measuring units</p> <p>10. A measuring instrument with 2 adjustable jaws used to measure diameter and thickness</p> <p>13. A graph of vertical bars representing the frequency distribution of a set data</p> <p>14. A standard quantity in terms of which other quantities may be expressed</p> <p>15. The number in the middle</p> <p>18. Facts and statistics used for reference or analysis</p> <p>19. Indicates the end of a dimension line or leader line</p> <p>20. A proportion between 2 set of dimensions</p> <p>22. An non-government global organizations which is the development of technical standards through consensus</p> <p>23. A group of individual values that are related in some way</p> <p>26. A number value or algebraic equation that is used to control the size or location of a geometric figure</p> <p>28. A method of visually displaying a distribution of data values where each value is show as a dot or mark above a number line</p> <p>29. Adding all the values then dividing by the number of value</p> <p>30. The degree to which repeated measurements show the same result</p> <p>31. The digits in a decimal number that carry meaning contributing to the precision or accuracy of the quantity</p> | <p>Down</p> <p>1. The rate something occurs over a particular period</p> <p>2. Collections of data</p> <p>3. A system of measurement used in the United States</p> <p>5. A diagrams howing the relation between 2 variable quantities</p> <p>6. A function that represents the distribution of variables as a symmetrical bell-shaped graph</p> <p>7. The closeness to the actual or accepted value</p> <p>8. A change or slight difference in condition, amount, or level</p> <p>9. The distance of a value in a population from the mean value of the population</p> <p>11. A line that represents distance</p> <p>12. To change a unit into a different quantity</p> <p>16. A group of values used to analyze the distribution of data</p> <p>17. To determine the size, amount, or degree of an object</p> <p>21. The value shown the most</p> <p>24. A statistical chart consisting of data points plotted</p> <p>25. Having the 3 principles of height depth and width</p> <p>27. A graph in the coordinate plane representing a set of bivariate data</p> |
