# Electricity

## Across

8. Milk's favorite cookie

9. The rate at which charge moves

10. SI unit of current

11. Resists the transfer of electric charge

13. Negatively charged particles

15. Allows electric charge to move freely

## Down

1. An object with no resistance

2. Item to store electric potential energy

3. Push or pull of charged items

4. Flow of electrons

5. Positively charged particles

6. Element commonly used in electric wiring

7. Particles without charge

12. The SI unit for charge

14. The SI unit for electric potential difference
