

# Phase Change

## Across

- 3.** Transitions between solid, liquid, and gaseous states of matter  
**6.** Liquid moves freely or? freely  
**7.** He discovered gas pressure.  
**8.** Carry out (something) in gradual stages (hint: is on top of this sheet take off the change)

**10.** When Popsicles melt they change into?

**11.** When liquid is changing to Ice

**12.** two or more atoms held together by chemical bonds

**14.** Ice is a?

**15.** When Ice is changing to liquid

## Down

**1.** When you can see something it's?

**2.** Is when water changes to gas

**4.** Liquid evaporates to?

**5.** The conversion of a vapor or gas to a liquid.

**9.** Gas can be?

**13.** The ability to move
