## Across

3. Transitions between solid, liquid, and gaseous states of matter
6. Liquid moves freely or? freely
7. He discussed

**7.** He discovered gas pressure.

**8.** Carry out (something) in gradual stages (hint: is on top of this sheet take off the change)

10. When Popsicles melt they change into?11. When liquid is

changing to Ice

**12.** two or more atoms held together by chemical bonds

**14.** Ice is a?

**15.** When Ice is changing to liquid

## <u>Down</u>

 When you can see something it's?
 Is when water changes to gas
 Liquid evaporates to?
 The conversion of a

vapor or gas to a liquid.

9. Gas can be?

13. The ability to move
