## Across

- 2. Believed in Separation of Powers and Check and Balances
- **6.** City that was the center of intellectual activity during the Enlightenment
- **8.** Believed that society began in anarchy and needed a absolute monarch to maintain a orderly society
- 10. Governmental principle based on just laws and on a government created by and subject to the will of the people
- 11. A group of thinkers or philosphers of the Enlightenment

## Down

1. System of government in which absolute monarchs ruled according to the principles of the Enlightenment

- 3. Period in the 1700s when philosophers believed that they could apply the scientific method and use reason to explain human nature logically
- **4.** System of government in which the ruler determines policy without consulting either the people or the representatives
- 5. Belief that the truth can be determined solely by logical thinking
- 7. Believed in the idea of popular sovereignty
- 9. Attacked injustice among nobility, government, church and believed in religious freedom
