

First 20 Elements on the Periodic Table

Across

1. atomic number is 12
4. K on the periodic table
10. 18 electrons
12. 14 electrons
13. what salt is composed of
15. What we breathe
16. have 2 protons
18. Be on the periodic table

19. N on the periodic table

20. 6 protons, 6 neutrons and 6 electrons

Down

2. atomic mass 20.2
3. Al on the periodic table
5. Li on the periodic table
6. Milk has this element

7. P on the periodic table

8. what we have in some pools

9. 9 protons

11. atomic mass 10.811

14. Number 1 on the atomic scale

17. atomic mass 32.1
