## **Across**

- **2.** hot fluid or semi-fluid material below or within the earth's crust
- **6.** is a group of millions of stars held together by gravity, like the Milky Way
- 9. are animals that eat only plants
- **10.** hot molten or semi-fluid rock erupted from a volcano
- 11. is the planet that we inhabit

## Down

- 1. are used to detect broken bones
- 3. a small rocky body orbiting the sun
- **4.** does not allow water to pass through
- **5.** a chemical element found in the air as a colorless odorless tasteless gas that is necessary for life
- 7. when the whole species is dead
- **8.** are the substances used in chemistry doing experiments
