

# Energy Types

## Across

6. This type of energy flows in a circuit
8. A moving ball has \_\_\_\_\_ energy
9. A toaster uses electrical energy to produce \_\_\_\_\_
10. A speaker uses electrical energy to produce \_\_\_\_\_
11. This type of energy can put things in motion

## Down

1. Energy is not created or destroyed
2. The energy stored in the nucleus of an atom is what type of energy?
3. A rock sitting at the edge of cliff has what type of potential energy?
4. Changing from one form of energy to another is called energy \_\_\_\_\_
5. A ball sitting at rest has \_\_\_\_\_ energy
7. A lamp uses electrical energy to produce \_\_\_\_\_
