The Heart

Across

- 1. prevents back flow of the blood into right atrium
- **2.** receives deoxygenated blood from the body
- **6.** takes oxygenated blood from the lungs to the left atrium
- **8.** Body's largest artery
- **9.** Your heart is located in the ____
- 10. Your heartcirculates blood throughpathways
- 11. responsible for pumping oxygen depleted blood to the lungs

- **12.** Your heart is one giant _____
- **13.** Carries deoxygenated blood from the right ventricle to the lungs
- **14.** Brings deoxygenated blood from the body to the heartS

Down

3. vein that carries deoxygenated blood from lower body to the heart

- **4.** also known as the mitral valve, permits blood to flow one way only
- **5.** recieves oxygenated blood from the left atrium and pumps it through the aorta
- 7. oxygen-rich blood from the lungs enters the left atrium through pulmonary vein
