

Name: _____ Date: _____ Period: _____

3rd Quarter Math Project By Angel Duffey

- | | |
|----------------------------|----------------------------------|
| 1. Congruent J | A. Not a straight line |
| 2. Square Root D | B. To insert |
| 3. Radical Q | C. The middle number |
| 4. Linear equation R | D. $y=x+7$ |
| 5. Product B | E. The largest number |
| 6. Of K | F. A person detached the body |
| 7. y-intercept F | G. Multiplucation |
| 8. Reflection A | H. Two variables together |
| 9. input Y | I. Digits that go on forever |
| 10. Non-linear functions L | J. Extensive |
| 11. Variable T | K. To be in harmony |
| 12. Outlier P | L. addition |
| 13. rate of change O | M. An ending decimal |
| 14. Sum S | N. Fixed and well defined number |
| 15. Product W | O. x |
| 16. Quotient X | P. A review |
| 17. Constant E | Q. Mode, range, mean, and median |
| 18. Mode M | R. $(4)^2=16$ |
| 19. Range G | S. division |
| 20. Line of best fit C | T. Line defining a points trend |
| 21. Transversal N | U. Two decreasing variables |
| 22. Median I | V. $7^2= 7 \times 7= 49$ |
| 23. Terminating decimal H | W. Ratio of variable differences |
| 24. Positive association U | X. Most occuring numbers |
| 25. Repeating decimal V | Y. The y coordinate of a point |

26. Negative association Z

Z. Line between two lines
