

# Nonverbal Communication

## Across

**5.** The degree to which we face toward or away from someone with our body, feet, and head

**6.** Movements that accompany speech but don't stand on their own

**7.** Deliberate nonverbal behaviors that have a precise meaning and are known to virtually everyone within a cultural group

**9.** Body position and movement

**11.** A common example of contradicting

**18.** Inadvertant signals of deception

**21.** 3rd spatial zone: 4 to 12 feet away

**22.** Expressions that replace verbal interjections

**23.** Unconscious bodily movements in response to the environment

**24.** Movements of the hands and arms

**25.** Any geographical area we assume "rights" to

**26.** Influencing the flow of verbal communication

**27.** Emphasizing oral messages

**28.** Message expressed by nonlinguistic means

**29.** Nonverbal behaviors that match the thoughts and emotions the communicator is expressing linguistically are called?

## Down

**1.** The study of the way people and animals use space

**2.** The first of Hall's four spatial zone: skin contact to 18 inches away

**3.** The study of how humans use and structure time

**4.** What your position says nonverbally about how you feel

**8.** Slow-motion expressions

**10.** 2nd spatial zone : 18 inches to 4 feet away

**12.** Hall's furthest zone

**13.** Emphasizing punctuality, schedules and completing one task at a time

**14.** Comments "accompanied by gestures"

**15.** A mixed message

**16.** Nonverbal, vocal messages

**17.** Self-touching behaviors

**19.** A flexible schedule with multiple tasks

**20.** The study of touching
