relationship with 2 species
 abiotic and biotic factors
 large effect on ecosystem
 ecological relationship
 ecosystem can support
 doesn't rely on prey
 reestablishment
 both benefits
 life

biotic factors that survive
 where biotic factors live
 1 benefits 1 not affected
 movement through world
 dry mass of organisms
 eats only one type
 eat dead matter
 first to live

1 benefits and 1 is harmed
 collection of populations
 hunts and kills for food
 limits growth and size
 energy from organisms
 breaks down matter
 establishment
 diagram
