9. Foes to Scalawags; they were well-educated, middle class professionals. Many were former Union soldiers attracted to the South's climate and cheap land.

10. A system of agriculture or agricultural production in which a landowner allows a tenant to use his land in return for a share of the crop produced on the land. This system of agriculture came into wide use in the Southern United States during the Reconstruction era (1865-1877).

## Down

1. This was enacted on March 3, 1863 which enabled the military draft to be used on a federal scale in the United States for the first time. This resulted in one of the most violent urban uprisings in American history. The act forced all male citizens and transitioning citizens between the ages of 20-45 to enlist in the military. A man could have avoided being drafted if he paid 300 dollars or found someone to replace him and in New York many riots broke out in which blacks and rich men were the prime targets of violence.

3. She led the U.S Sanitary Commission (organization of civilian volunteers) and helped mobilize large numbers of female nurses to serve in field hospitals at a time when the nursing profession was dominated by men. The Commission helped spread ideas about the importance of sanitary conditions in hospitals and clinics.

4. A term of derision in the South for white Southern Republicans
