		D				¹⁵ E	L	Α	S	Т	1	С	I	Т	Υ				N				
		E									Т								Т				
		D									Υ								S				

Across

- **6.** movement along the demand curve showing that a different quantity is purchased in response toa chnage in price
- 7. different amount of a product are demanded at every price, causing the demand curve to shift to the right or left
- **12.** type of elasticity in which a change in the independent variable results in a larger change in the dependent varibale
- **13.** elasticity where a change in the indepoendent varibale generates a proportional change of the dependent varibale

15. a measure of responsiveness that tells us how a dependent variable, such as quantity demanded or quantity supplied

Down

- 1. competing products that can be used in place of one another
- **2.** the extent to which a change in price causes a change in the quantity demanded
- **3.** decrease in additional satisfaction or usefulness as additional units of a product are acquired
- 4. movement along the demand curve showing that a different quantity is purchased in response to a change in price

- **5.** the desire, willingness, and ability to buy a product
- **8.** graph showing the quantity demanded at each and every possible price that might prevail in the market at a given time
- **9.** rule stating that more will be demanded at lower prices and less at higher prices
- **10.** the extra usefulness, or satisfaction one gets from buying one more unit of a product
- 11. something that motivates
- **14.** products that increase the use of other products
