

Name: _____

Date: _____

Period: _____

Photosynthesis and Cellular Respiration

cellular respiration

muscle contraction

carbon dioxide

photosynthesis

carbohydrate

light energy

fermentation

mitochondria

chlorophyll

lactic acid

heterotroph

chloroplast

glycolysis

reactants

anaerobic

thylakoid

autotroph

sunlight

pyruvate

products

osmosis

protein

bilayer

aerobic

cristae

glucose

granum

stroma

oxygen

yeast

water

ADP

ATP
