

Chapter 8: Human Growth and Development

Across

3. transfer of unacceptable or painful ideas, feelings, and thoughts into the unconscious mind

6. two main ways withdrawal can occur: individuals can either cease to communicate or remove themselves physically from a situation

11. birth to 1 year

12. 40-65 years

14. 12-18 years

15. 65 years and older

16. placing the blame for one's own actions rather than accepting responsibility for the actions

Down

1. similar to repression, but the individual is aware of the unacceptable feelings or thoughts and refuses to deal with them

2. 1-6 years

4. 6-12 years

5. 19-40 years

7. substitution of one goal for another to achieve success

8. transferring feelings about one person to someone else

9. reasonable excuse for behavior to avoid the real reason

10. dreamlike thought process that occurs when a person is awake

13. disbelief of an event or idea that is too frightening or shocking for a person to cope with
