## Elements of Art

## Across

2. patterns of repeating lines that fill a space
3. these are the main 3 colors needed to create all other colors
4. when a color is mixed with black
5. you give the illusion of this by adding details to the surface of your artwork
6. this element of art is a point (or dot) moving through space to create a shape
7. when a color is mixed with gray
8. this element of art refers to distances around, to and from or between areas
9. three dimensional
objects that are drawn using lines
10. this is created when light his an object...it lets us see the $\qquad$ of an object
11. this can be positive or negative on your paper when sketching
12. these colors are opposite one another on the color wheel

## Down

1. The many different ways, or views, that can be used while sketching
2. two dimensional objects that are drawn (ex: circles, squares, triangles)
3. this color scheme comes from a single hue mixed with tones, tints and shades

4. these colors are created when you mix primary colors together
5. what you get when you mix primary and secondary colors
6. colors that are next to each other on the color wheel
7. this ranges from black to white when working with value
8. when a color is mixed with white
9. the lightness or
 darkness of tones or colors
