

Cells Tissues & Organs

Across

- 6. Groups of cells with similar functions
- 7. Cells need food, water and ____ to live
- 9. Groups of tissue with the similar functions
- 11. Tissue that stretches and contracts to let the body move
- 13. Tissue that receives and carries impulses to the brain and back of the body

- 14. Outer covering of a cell
- 15. Contains smaller structures that perform cell functions

Down

- 1. Tissue that covers internal and external body surfaces
- 2. Examples of organs are the heart, brain, liver, _____ and kidneys
- 3. Thread like structures in the nucleus

- 4. You need a _____ to study cells
- 5. Tissue that anchors, connects and supports other tissue
- 8. Controls the traits children inherit from their parents
- 10. Control center of the cell
- 12. What is the basic unit of structure?
