

Metals, Nonmetals, and Metalloids

Across

1. Chemical symbol is O
 6. Allows heat and electricity flow
 11. Conductor under conditions
 13. Easily Broken

14. Hammered into sheets

Down

2. Chemical symbol is Au
 3. Chemical symbol is B
 4. Not a conductor or luster
 5. Can be wired into

7. Shiny

8. Conductor and luster

9. Chemical symbol is Ca

10. Doesn't allow heat/electricity flow

12. Not Shiny
