

# Mass/Density/Volume

## Across

- 2. Starting point of a lab process
- 4. Used to measure liquid volume
- 8. Amount of matter in an object
- 9. Matter that is used for dinner

- 10. Substance with mass that takes up space
- 11. 3 dimensional space an object occupies
- 13. A unit of mass

## Down

- 1. Final determination of a lab

- 3. Used to measure mass
- 5. Mass divided by volume =
- 6. ml and cm<sup>3</sup> are
- 7. Mass divided by density =
- 12. Density x Volume =
