**Word Bank**

- Ectopic Pregnancy
- Parity
- Preeclampsia
- Beta HCG
- Labor
- Nullipara
- Uterine Atony
- Postpartum
- Hydramnios
- Neonate
- Surfactant
- Trimester
- Naegele’ Rule
- abruptio placenta
- Lochia
- Nuchal Cord
- Viability

**Solutions**

Across

2. Oxygen
3. Viability
6. Trimester
11. Trimester
13. Parity
15. Multipara
16. Labor
18. Postpartum
19. Multipara
20. Effacement
21. Episiotomy
22. Amniotomy
23. Effacement
24. Abnormal
25. Term
26. Nuchal Cord
27. Lochia
28. Neonate
29. Gestation
30. Antepartum

**Down**

1. Nulligravida
4. Effacement
5. Lanugo
7. Preeclampsia
8. Ectopic Pregnancy
9. Nullipara
10. Antepartum
12. Labor
14. Beta HCG
17. Parity
19. Fetus
21. Prgestational
22. Fetal
24. Effacement
27. Postpartum
28. Fetus
29. Surfactant
30. Uterine Atony

**Narural Text Representation**

Across

2. Required for normal respiratory function
3. Ability of a fetus to survive outside the mother
