

Principles of Government

Across

2. The principle that states the government is limited on what it can do by the constitution and laws.
3. The principle of government that states the people vote for their government representatives.
4. The principle that states individuals have the liberty to pursue life and goals without others or the government interfering.
6. The principle of government that states the federal government and the state government share powers.
8. The principle that states each branch of the government can check the other two. This helps the government stay balanced.

9. The document that makes this a Limited Government by restricting what it can do.

10. The principle of government that states that people have the power to control the government.

Down

1. The principle that states the government's powers is divided between the three branches and is limited so each branch is equal.
5. The way citizens put the people they want in the government using Republicanism.
7. The document that has the first 10 amendments which are part of Individual Rights.
