

Name: _____

Date: _____

Ionic and Covalent Compounds

Across

3. NO

5. positively or negatively charged atom

6. KCl

8. Li₂O

10. not shiny; usually an anion; not a good conductor

12. made the current periodic table

13. CO₂

14. P₂F₅

Down

1. negatively charged atom

2. H₂O

4. CaCl₂

7. positively charged atom

9. shiny, malleable, ductile

11. made the first periodic table
