

Lymphatic System

Across

- 3.** Clear fluid that is found in lymph vessels and produced from fluid surrounding cells.
- 4.** Lymph nodes located in the groin are called _____ lymph nodes.
- 5.** Precise blood test to detect antibodies to specific antigens, as in HIV infection.
- 7.** Malignant tumor of lymph nodes and lymphatic tissue.
- 10.** The _____ gland also produces lymphocytes.
- 11.** Lymph originates in the spaces around cells and travels in _____, and xxxxx xxxxx to a large vein in the neck.
- 14.** Human immunodeficiency syndrome
- 15.** Acquired immunodeficiency syndrome
- 16.** X-ray views in the transverse plane for the diagnosis of abnormalities in lymphoid organs (lymph nodes, spleen, and thymus gland).
- 17.** Lymph nodes located in the neck area are called _____ lymph nodes.
- 18.** Acute infectious disease with enlargement of lymph nodes and increased numbers of lymphocytes and monocytes in the bloodstream.

Down

- 1.** Dilation of small lymph vessels; often resulting from obstruction in large lymph vessels.
- 2.** Disease of lymph nodes (glands).

- 6.** Lymph originates in the spaces around cells and travels in xxxxx xxxxxxxx, and _____ to a large vein in the neck.
- 8.** Lymph nodes located in the armpit are called _____ lymph nodes.
- 9.** An example of lymphoma.
- 12.** Blood-forming organ in early life; later a storage organ for red blood cells and a source of lymphocytes.
- 13.** Inflammatory disease in which small nodules, or tubercles, form in lymph nodes and other organs.
