

# Phlebotomy

## Across

**4.** Na Heparin,  
Chemistry, Plasma

**7.** Li Heparin,  
Chemistry, Plasma

**10.** substance that  
prevents the blood from  
coagulating or clotting

**11.** Tubes containing  
anticoagulants yield

**12.** SPS, Microbiology,  
Whole Blood

**13.** K Oxalate & Na  
Fluoride, Chemistry,  
Plasma

## Down

**1.** any substance added  
to a blood collection tube.

**2.** K EDTA,  
Hematology, Whole Blood

**3.** None, Chemistry  
Blood Bank, Serum

**5.** Na Citrate,  
Coagulation, Plasma

**6.** Whole blood  
specimens allowed to clot  
and then centrifuged yield

**8.** Anticoagulated whole  
blood specimens separated  
by centrifuge yield

**9.** None, Chemistry,  
Serum
