

Cosmetology Chemistry

Across

- 5.** Oil-loving
7. I release oxygen
9. pH below 7
12. an ion with a positive electrical charge
13. mutually soluble, mixed together
14. Solids, Liquids, and Gas are all states of _____
15. Positive charge

- 16.** substances that allow oil and water to mix
17. mixture of two or more substances in a solvent
18. Negative charge
19. pH above 7

Down

- 1.** Also known as "redox"
2. I contain the element carbon

- 3.** an ion with a negative electrical charge
4. "VOC", contain carbon and evaporate very easily
6. Chemical combination of matter in definite proportions
8. Dissolved substance in a solution
10. Simplest form of chemical matter
11. Water is the _____ solvent

Word Bank

Volatile organic compound	solution	universal	element
acidic	anion	Oxidation-reduction	solute
protons	neutrons	Surfactants	matter
Miscible	Oxidizing agent	Pure substance	cation
alkaline	Organic chemistry	lipophilic
