

Chapter 13 Tarcia

Across

- 3. The understanding that race or ethnicity remains the same across time and in different settings.
- 5. A level of anxiety that is severe, lasts a long time, and interferes with normal functioning.
- 8. The different experiences that siblings in the same family have in that environment.
- 9. A condition marked by long-lasting and severe feelings of worthlessness and hopelessness, a lack of pleasure, sleep and appetite disturbances, and possibly suicidal thoughts.
- 12. The ability to bounce back from adversity or to thrive despite negative life circumstances.
- 13. The idea that both sexes can have characteristics that are traditionally considered masculine and traditionally considered feminine.

- 14. The extent to which a child is affected by peer rejection.
 - 15. Children who receive a lot of nominations as "like least" and a few as "like most" on a sociometric measure.
 - 16. School-based programs designed to boost students' self-esteem, with the goal of eventually improving their academic performance.
 - 18. A research technique used to assess a child's social behavior and culture.
 - 19. Children who receive a number of nominations for "like most" and "like least" that is close to the median in the peer group on a sociometric measure.
 - 20. Comparing one's own performance or characteristics to those of other people.
- Down**
- 1. A vague fear about events that may or may not occur.

- 2. A person's attitudes toward the ethnic group to which they feel they belong.
- 4. Repeated exposure to negative actions on the part of one or more other students; includes physical bullying, verbal bullying, and emotional bullying.
- 6. A persistent pattern of behavior marked by violation of the basic rights of others or major age-appropriate social norms or rules.
- 7. Stage when children understand that their gender will remain stable over time, but aren't sure that gender won't change if they do activities usually performed by the other gender.
- 10. The feelings you have about your own general self-worth.
- 11. A preference for playing with other children of the same gender.
- 17. The idea promoted by media images that it is best for girls and women to be thin.
