# Thinking and Problem Solving Crossword

## Across

4. the mental grouping of similar objects, events, ideas, or people
6. the way an issue is posed; how an issue is framed can significantly affect decisions and judgements
8. the tendency to believe, after learning an outcome, that one had foreseen it
9. simple thinking strategy that often allows us to make judgements and solve problems efficiently; usually speedier but also more error-prone than algorithms
10. a tendency to approach a problem in a particular way, often a way that has been successful in the past

11. the tendency to think of things in terms of their usual functions; an impediment to problem solving

## Down

1. a sudden and often novel realization of the solutions to a problem
2. the tendency to be more confident than correct-to overestimate the accuracy of one's beliefs and judgements
3. the tendency for one's preexisting beliefs to distort logical reasoning, sometimes by making invalid conclusions seem valid, or valid conclusions seem valid
5. a mental image or best example of a category
7. a methodical, logical rule or procedure that guarantees solving a particular problem
