Music in Film

Across

1. • A Canadian composer, he composed an opera, The Fly, and over 40 film scores including The Lord of the Rings.
8. • He scored the soundtrack for Star Trek: The Next Generation as well as The Passion of Christ
11. • One of the biggest names in Disney movie music. He scored the soundtrack for Beauty and the Beast, Newsies, and Frozen.
12. • The sharing of another person's feelings or emotions.
17. • To determine which scenes should have music.
18. • A perforated strip along a film's edge containing coded representations of the sound. Music composed for films will often be sold separately as it can stand on its own merits.
19. • Suggesting actions or events BEFORE they happen.
20. • Frodo, Gandalf, and the rest of the crew owe their voices to Howard Shore who composed the music for this film.
22. • The professional responsible for selecting, commissioning, and/or writing the music track for a film or TV production.
25. • Early film director from France. His film Voyage to the Moon (1902) is one of the first films that actually told a story.

26. • In 1924 he composed and published Motion Picture Moods for Pianists and Organists which helped the pianist or organist to choose music appropriate for the scene in early silent movies.

27. • A piece composed by Samuel Barber and used in the movie Platoon. It expressed the shock, disbelief, and sorrow experienced by soldiers in the Vietnam War.

Down

2. • Famous cellist who provided much of the music for Crouching Tiger, Hidden Dragon.
3. • A bit of a misnomer as music and sound was provided by a pianist or organist. The earliest movies were these kinds of movies.
4. • Melodies associated with a particular character that recur throughout the film.
5. • The first "Talkie" movie featuring Al Jolson singing to his own mother.
6. • A Rapper turned musical director.
7. • The first successful attempt at synchronized sound was accomplished through this phonographic machine. It was used to create the first talking film.
9. • A series of clicks that allow the conductor to synchronize the orchestra's playing to the film.

10. • Before the digital age, music for all films were recorded on a film similar to audiotapes coated with an oxide surface.

13. • The same individual who invented the light bulb has also been credited with creating the movie camera.

14. • One of the greatest composers of film music. He composed the music for Raiders of the Lost Ark, Close Encounters of the Third Kind, Star Wars and many others.

15. • Putting all the elements of sound- dialogue, sound effects, and music- onto one soundtrack.

16. • Edison's 1889 invention. Seen as the forerunner of the present day movie camera.

21. • Composing music expressly for a film or TV production.

23. • The specific music for a particular scene in a film or television production.

24. • Sinister movie of a 25 foot man eating shark. Music composed by John Williams.
