# Printmaking

## Across

4. a type of print making using stenciling
6. a work of art made up of ink on paper and existing in multiple examples
8. the 16th century woodcut printmaker
9. a unique print made by painting or drawing on a smooth, unincised metal or glass plate that is then run through a press
10. any material applied to a surface to prevent the passage of another material
11. a type of printmaking using crayon, ink, turpentine, and water on limestone

## Down

1. invented after the discovery that acid could be used to incise an image into a metal plate
2. a group of identical impressions printed from the same matrix or matrices.
3. any form of printing, such as woodcut, linoleum cut, or rubber stamping, in which raised areas are linked and printed while recessed areas are not
5. the earliest printmaking technique, which was originally used for stamping, designs onto fabrics, textiles, or playing cards.
7. a sheet, made of paper, film, plastic or thin metal, in which lettering or a design has been cut so that ink applied to the sheet will transfer the pattern to the surface beneath
