# Perimeter and Area

## Across

6. A line segment that passes through the center of a circle

7. The distance around a circle

9. A three-dimensional figure with all points the same

10. A polyhedron that has two congruent, polygon-shaped bases and other faces that are all parallelograms

## Down

1. The sum of the areas of the faces

2. A three-dimensional figure with two parallel, congruent circular bases connected by a curved lateral surface

3. The set of all points in a plane that are the same distance from a given point

4. The distance around a polygon

5. A polyhedron with polygon base and triangular sides

8. Ice cream
