# Engineering Structures

sections and beams	tensile strength	permanent joint	temporary joint	construction	dynamic load
brittleness	cablestayed	compression	engineering	non ferrous	cantilever
properties	pure metal	suspension	aluminium	magnesium	malleable
materials	metal ore	soldering	tempering	toughness	adhesive
industry	riveting	brazing	ductile	ferrous	fusible
mixture	welding	bridge	copper	Forces	safety
static	struts	alloy	metal	mined	steel
truss	arch	beam	gold	iron	nail
zinc	CAD
